Ohio Educator Preparation Provider Performance Report Ursuline College

Ohio Teacher Evaluation System (OTES) Results for Ohio Teachers Prepared by an Ohio Educator Preparation Provider at Ursuline College

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating teachers (Ohio's Teacher Evaluation System) provides educators with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement. The system is research-based and designed to be transparent, fair, and adaptable to the specific contexts of Ohio's school districts. Furthermore, it builds on what educators know about the importance of ongoing assessment and feedback as a powerful vehicle to support improved practice. Teacher performance and student academic growth are the two key components of Ohio's evaluation system.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Rather, it's a view of the evaluations from that school year, showing four different cohorts of licensed educators. The most recently licensed cohort will eventually have more evaluation results in its second year as more educators find employment as teachers or principals.

Limitations of the Ohio Teacher Evaluation System (OTES) Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The teacher evaluation data in this report are provided by the Ohio Department of Education.
3. Due to ORC 3333.041(B), annual results must be masked for institutions with fewer than 10 completers with OTES data.

2020 Ohio Educator Preparation Provider Performance Report Ursuline College

Ohio Principal Evaluation System (OPES) Results for Individuals Completing Principal Preparation Programs at Ursuline College

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Education)

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's system for evaluating principals (Ohio's Principal Evaluation System) provides building leaders with a detailed view of their performance, with a focus on specific strengths and opportunities for improvement.

The Ohio Principal Evaluation System (OPES) data reported here are limited in that the information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.

An apparent dip in evaluations for the most recent "Initial License Effective Year" cohort comes from the perception that any given year's evaluation results are actually a chronological view of evaluations. Field and Clinical Experiences for Candidates at Ursuline College

Reporting Period from Sept 1, 2019 to Aug 31, 2020

(Data Source: Ursuline College)

Description of Data:

Ohio requires that educator candidates complete field and clinical experiences in school settings as part of their preparation. These experiences include early and ongoing field-based opportunities and the culminating pre-service clinical experience commonly referred to as "student teaching." The specific requirements beyond the requisite statewide minimums for these placements vary by institution and by program. The information below is calculated based on data reported by Ohio Educator Preparation Providers.

Teacher Preparation Programs

Field/Clinical Experience Element	Requirements
Require edTPA National Scoring from candidates in teacher preparation programs at the institution	N
Minimum number of field/clinical hours required of candidates in teacher preparation programs at the institution	305
Maximum number of field/clinical hours required of candidates in teacher preparation programs at the institution	405
Average number of weeks required to teach full-time within the student teaching experience at the institution	16
Percentage of teacher candidates who satisfactorily completed student teaching	100%

Principal Preparation Programs

Field/Clinical Experience Element	Requirements
Total number of field/clinical weeks required of principal candidates in internship	9
Number of candidates who started internship	10
Number of candidates who completed internship	9
Percentage of principal candidates who satisfactorily completed internship	90%

Ohio Educator Licensure Examination Pass Rates at Ursuline College

Reporting Period from Sept 1, 2018 to Aug 31, 2019
(Data Source: USDOE Title II Report)

Description of Data:

Ohio educator licensure requirements include passage of all requisite licensure examinations at the state determined cut score. The reported results reflect Title II data, and therefore represent pass rate data solely for initial licenses. Further, because the data are gathered from the Title II reports, there is a one-year lag in accessing the data. Teacher licensure pass rate data are the only reported metric for which the data do not reflect the reporting year 2019-2020.

As of 2013, the Ohio Assessments for Educators replaced the Praxis subject assessments for initial licensure. Some Praxis II assessments are still being reported because recent program completers took those tests in or before 2013.

Ohio Principal Licensure Examination Pass Rates at Ursuline College

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ursuline College)

Description of Data:

Ohio requires that principal candidates pass the requisite state examination to be recommended for licensure. The 2019-2020 program completer pass rates are reported by each Ohio educator preparation provider.

**Value-Added Data for Students Taught by Teachers Prepared
 by Ohio Educator Preparation Providers at Ursuline College**

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Ohio's ordered school-building closure and subsequent emergency legislation addressing the coronavirus pandemic-related issues (House Bill 197 of the 133rd General Assembly) had substantial impacts on state testing during the 2019-2020 school year. As a result, the OTES/OPES and Value-Added sections of this report will include limited or no data.

Ohio's value-added data system provides information on student academic gains. As a vital component of Ohio's accountability system, districts and educators have access to an extensive array of diagnostic data through the Education Value-Added Assessment System (EVAAS). Schools can demonstrate through value-added data that many of their students are achieving significant progress. Student growth measures also provide students and parents with evidence of the impact of their efforts. Educators and schools further use value-added data to inform instructional practices.

Limitations of the Value-Added Data:

1. The information in the report is for those individuals receiving their licenses with effective years of 2016, 2017, 2018, and 2019.
2. The value-added data in this report are those reported by Ohio's Education Value-Added Assessment System (EVAAS) based on Elementary and Middle School Tests (Grades 4-8) and End-of-Course Tests for high school credit.
3. For Educator Preparation Providers with fewer than 10 linked teachers or principals with value-added data, only the number (N) is reported.

Pre-Service Teacher Survey Results

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on student satisfaction with the quality of preparation provided by their educator preparation programs, the Ohio Department of Higher Education administers a survey aligned with the Ohio Standards for the Teaching Profession (OSTP), Ohio licensure requirements, and elements of national accreditation. All Ohio candidates receive an invitation to complete the survey during their professional internship (student teaching). The results of this survey are reflected here. A total of 2,903 respondents completed the survey statewide for a response rate of 68 percent.

Principal Intern Survey Results

Reporting Period from Sept 1, 2019 to Aug 31, 2020

Description of Data:

Due to the COVID-19 pandemic-related issues, including school closures and staff transitions in Ohio during the 2019-2020 school year, the distributions of some surveys were delayed, contributing to lower response rates.

To gather information on the quality of preparation provided by their educator preparation providers, the Ohio Department of Higher Education distributes a survey to Ohio principal interns. Questions on the survey are aligned with the Ohio Standards for Principals, Ohio licensure requirements, and elements of national accreditation. A total of 204 respondents completed the survey statewide for a response rate of 26 percent.

National Accreditation Status

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ohio Department of Higher Education)

Description of Data:

All educator preparation programs (EPPs) in Ohio are required to be accredited by either the National Council for Accreditation of Teacher Education (NCATE), the Teacher Education Accreditation Council (TEAC), or their successor agency, the Council for Accreditation of Educator Preparation (CAEP). Accreditation is a mechanism to ensure the quality of an institution and its programs. The accreditation of an institution and/or program helps employers evaluate the professional preparation of job applicants.

Excellence and Innovation Initiatives

Reporting Period from Sept 1, 2019 to Aug 31, 2020
(Data Source: Ursuline College)

Description of Data:

This section reflects self-reported information from Ohio Educator Preparation Providers on a maximum of three initiatives geared to increase excellence and support innovation in the preparation of Ohio educators.

Teacher Preparation Programs

Initiative:

Purpose:	Provide an alternative path to initial teacher licensure
Goal:	To increase minority candidates and candidates employed in schools as paraprofessionals
Number of Participants:	4
Strategy:	Partnerships are an essential condition for colleges with teacher and administrative licensure programs as well as pre K-12 school districts. These partnerships allow the needs of both organizations to be addressed in various ways. The partnership between Ursuline College and Beachwood City Schools has been in discussion since early 2019. The Beachwood Partnership consists of five school districts collaborating to increase the access to a career in teaching for minority candidates or candidates who employed in the partnership schools and would like to continue working and taking the Master Apprenticeship classes on a part-time basis. This non-accelerated version of MAP allows the partnership candidates to earn a Master Degree of Education and an initial teacher license in two year as opposed to one year in the accelerated program.
Demonstration of Impact:	Completion of program May 2022.
External Recognition:	N/A
Programs:	Master Apprenticeship Program

Principal Preparation Programs

Initiative:

Purpose:	This was a zoom presentation for all students in the Education Unit Programs; advanced program, initial teacher license program, and our 4+1 students who have not yet been admitted to the initial pgrm
Goal:	To give all participants the opportunity to address their feelings about bias in the classroom.
Number of Participants:	58
Strategy:	The facilitators used mixed small groups as a way to help with student engagement. They also used a lot of whole group activities so that the participants were active even when they weren't in small groups. One side effect of the presentation was that the participants got to see a good example of technology integration on zoom.
Demonstration of Impact:	No formal data was collected. All anecdotal comments were very positive.
External Recognition:	The Cleveland office of Facing History and Ourselves were the main presenters and they did an excellent job on zoom integrating all participants into the session.
